Sprint-2 Plan

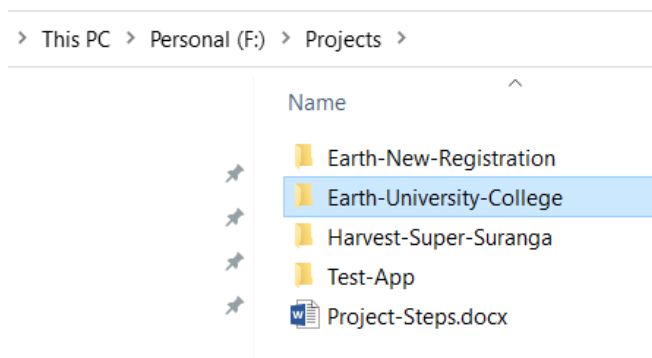

Employee Detail Management

Practically Sprint-2(Employee Details) must proceed Sprint-1(User Details).
But, we used Server-App of the Sprint-1 as a research Project.
Hence, we will start the Project again from the Spring Standard Project Architecture.
However we will continue with Client-App from Sprint-1.
We will add Classes need for User Details at the end of Sprint-2.

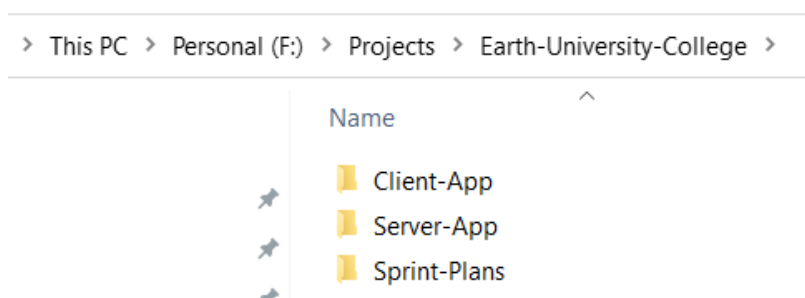

1. **Establishing Project Folder Architecture**
2. Server App Initialization
3. Sprint-2 Execution [2(a), 2(b), 2(c), 2(d), 2(e), 2(f)]
4. Completing Sprint-1 Objectives

1. **Sprint Plans with Designs and Database Versions**
2. **Client App Versions and Controller Designs**
3. **Server App Versions and Controller Designs**

Create, "Projects" → "Earth-University-College"

Create, 3 Folders inside the "Earth-University-College".
